

International Institute of Concern for Public Health

Statement: To stop refurbishment and immediately commence decommissioning of the Point Lepreau Nuclear Generating Station

September 17, 2010

Please sign on and support this important statement from the Passamaquoddy people.

Thank you for your support.

See also the [media release from Chief Hugh Akagi of the Passamaquoddy Nation.](#)

We, the undersigned concerned groups and citizens, are concerned that the nuclear generating station at Point Lepreau, New Brunswick,

- i) is poisoning the air, land, waters, people and all other life forms who live there;
- ii) operates with radioactive fuel that is poisoning the air, land, waters, people and all other life forms; wherever nuclear fuel is mined, processed and transported;
- iii) is an unnecessary economic burden on the people of New Brunswick;
- iv) is an unsafe operation undergoing untested and untried first-of-a-kind refurbishment of aging and damaged equipment in a populated area
- v) is proceeding without consultation with or permission from the indigenous people of the territory

We herewith demand that:

no further monies be spent on nuclear energy in New Brunswick,

- and -

plans to decommission the reactor at Point Lepreau begin immediately.
